## Transformer-Module

Transformer-Module

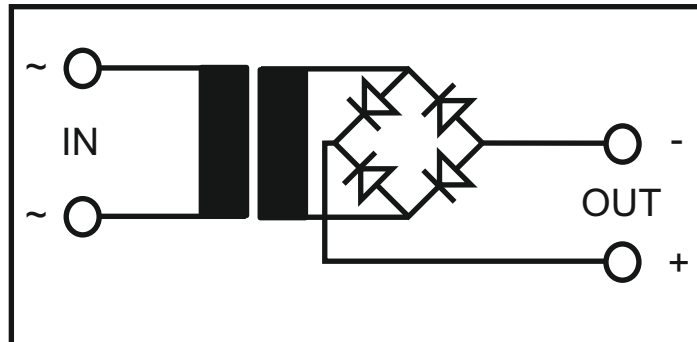

**Dimensions:**

width: 45 mm

length: 92 mm

height: 63 mm

weight: 175 gr.

basic circuit diagram

- easy handling
- sturdy construction
- easy mounting with snap-in mechanism for DIN standard rails
- for connecting 12 VDC LED pilot lights to a 400 to 600 VAC power source
- for each ill. screen you need one module
- indicators with individual connectors needed

**Manufacturer:**
